

LIONSPEAK CALIBRATION RETREATS

**GIVE YOUR TEAM THE GIFT OF
SHARED ALIGNMENT AND
STRATEGIES!**

A lion cub's life depends on how the Lioness helps them quickly become independent – just like employees depend on us to teach the skills they need to be successful.

What can we learn from the Lioness' approach?

It's a jungle out there!

Whether you manage 2 people or 200, join Katherine Eitel Belt, the Unscripted Communication Expert, as she takes teams through the process of realigning the entire team around the owner(s) vision and produce strategies for accomplishing that vision with clear action items, team commitments, and accountability processes.

Katherine Eitel Belt brings years of experience in dental and healthcare coaching as well as excellent group facilitation skills to help practices raise the bar for team alignment, business growth, client attraction, and patient service.

These retreats are held at creative off-site locations (such as climbing gyms, adventure courses, wineries, racetracks, etc.) and breathe new life and an elevated spirit back into teams and create new clarity around vision, values, goals, and strategies. They can also address roadblocks for teams and create real breakthroughs in terms of inter-team communication skills, culture, and teamwork issues such as gossip, negative attitudes, lack of accountability, and disengagement.
